

FREE NIGHT SCHOOLS for "GROWN-UPS"

THESE are busy days, or rather nights, for evening school principals and teachers. The registration has broken all records, and every evening long lines of young men and women present themselves at the doors in the hope that some chance will give them the opportunity to slip into a place vacated by absence or withdrawal.

The city of New York recognizes its duty to those who come here with an imperfect knowledge of English, or as more often happens, with none at all, and endeavors to make the struggle for life in the new

DEAFNESS CONQUERED.

Generous Offer of a Free Book to All Deaf People Who Wish to Hear.

Deaf people everywhere will rejoice with all their hearts over the reliable new cure for Deafness that is restoring hearing in so many cases once thought hopeless. In order that every one may learn of this cure—by all odds the best yet known for Deafness—the specialist who perfected this successful new method has written a very interesting and helpful book which he will send absolutely free of charge to any person who suffers from Deafness. It shows in the plainest manner the causes of Deafness and Head Noises, and points out the way to regain clear and distinct hearing. Careful drawings of the ear and its complicated passages, made by the best artists, illustrate the book.

Deafness Specialist Sproule, author of this desirable work, has for twenty-one years been making a thorough investigation of Deafness and Head Noises, and his successful new cure for Deafness is the reward of all his patient study. Now he wishes every one who suffers from Deafness in any degree to learn how science can conquer this cruel affliction.

Don't neglect your Deafness any longer! Send for this book today and learn how hearing is being restored quickly and permanently. Many who once believed their Deafness incurable have already gained perfect hearing by following the advice given in its pages. Write your name and address on the dotted line, cut out the free book coupon and mail it to Deafness Specialist Sproule, 185 Trade Building, Boston.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature. But few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better it is. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion; it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal and other harmless antiseptics in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal says:—"I have used Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them. They cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

FIVE REASONS

WHY the John H. Woodbury Dermatological Institute is the Best of Its Kind in the World.

FIRST—Because its staff of Physicians, Surgeons and operators are the most skillful and progressive specialists in their line of work to be found anywhere in the world.

SECOND—By reason of the ability of its staff it is able to correct featural deformities and give results that a generation ago were pronounced by the medical profession at large as absolutely impossible.

THIRD—The system under which this immense business is carried on is one that tends to success, every patient receiving the personal attention of a specialist who has made a life study of the trouble in hand.

FOURTH—No expense is spared in supplying the Institute with the latest and most improved means for the successful treatment of its cases, material for our private formulae coming from the remotest parts of the world.

FIFTH—Because our aim is to relieve the sufferer and help him or her on to success and happiness we have been properly appreciated by the great American Public, who know us as the Pioneers in Dermatology.

CURED MY RUPTURE

I Will Show You How To Cure Yours FREE.

I was helpless and bedridden for years from a double rupture. No truss could hold. Doctors said I would die if not operated on. I fooled them all and cured myself by a simple discovery. I will send the cure free by mail if you write for it. It cured me and has since cured thousands. It will cure you. Write to-day, Capt. W. A. Collins, Box 523, Watertown, N.Y.

Class of Women in Phonography and Typewriting.
East Side Evening High School for Women.
East Broadway and Scammel Street.

Modelling in Clay, New York
Evening High School,
120 West 46th Street

Class in Printing
Evening Trade School in
building of Manual Training High School, Brooklyn.

Drawing from Life, Harlem Evening High School, 116th Street
near Lenox Avenue.

The students have taken off their coats and rolled up their shirt sleeves to pay not the slightest attention. Each one seems to be in the use of the \$5.00 worth of apparatus. If a stranger goes into the high ceiling laboratory they pay not the slightest attention. Each one seems to be in the use of the \$5.00 worth of apparatus.

Questions Answered by the Herald Oracle

What is the distinction between "Kismet" and "Karma"? H. L. G.
They are often interchanged in their use. Kismet is simply the appointed lot as fixed by blind fate, while Karma is the supreme power, the merit and demerit of intelligent existence, the law of ethical causation regulating the future life, the effect of an act.

Is there a society in New York lending money to the poor without interest? POOR.
No.

What day was January 14, 1868? J. M. B.
Thursday.

Is Japan a third class naval power? S. L.
No, first class, being first in rank.

Is George Dewey now an admiral in the United States Navy? G. E. H.
Yes, and the only one.

Have any of the Bible stories ever been written in ocer? SINGER.
Yes, many of them. They are called oratorios.

I have read about Fort Diamond in New York Harbor. Where was it? B. B.
It is Fort Lafayette. The name was changed in 1823.

When and where was the American National Red Cross incorporated? GROSS.
In the District of Columbia, October 1, 1881.

What is the population of Richmond Borough? S. I.
About 155,000.

What was the Alexandrian era? TAD.
The era beginning August 29, 550 B. C.

When will Easter Sunday be? O.
April 15.

Should we use the expression "Sunday" school or "Sabbath" school? T. T.
If you mean a school for instruction on Sunday, then it is "Sunday" school; if you mean for instruction on the Sabbath (Saturday), then "Sabbath" school. In ordinary speech the words are often improperly interchanged.

What holiday comes on March 2? V. V.
The anniversary of Texas independence, celebrated in Texas, is the only one we know of.

Is the postage on local or drop letters one cent or two cents an ounce? F. O.
Two cents at offices where there is a free delivery and one cent where there is no free delivery.

Who was it wrote: "She walks the waters like a thing of life, And seems to dare the elements to strife." POEM.
Byron, in "The Corsair."

Why cannot a car be propelled by one man if he has a long lever? C. I.
It can be, but the motion would be so slow as to be hardly perceptible. No energy is gained by a lever. You have to

rapidly approaching, when they must close for the night. It is from such students as these that the best demonstrators, electricians and scientific chemists come. Year after year they come with unfailing regularity, until they have completed the four years' course, which is really equivalent to that in many a university.

A class of sixty in architectural drawing is in attendance night after night with hardly a break. The students are so crowded there is hardly room for so many drawing boards. Each is busy with his original design or his study of the classical models in their adaptability to modern public buildings. Each young man seems working away for dear life on his plan, which by and by will be completed and shown with pride, and the embryo architect can feel the joy of accomplishment.

In some of the evening schools there is a perfect congress of nations. In Public School No. 40, in East Twentieth street, it happens that twenty-six races are represented in one class. The various nations are American, Armenian, Austrian, Bohemian, Cuban, Dutch, Danish, French, Finnish, German, Greek, Hungarian, Italian, Irish, Japanese, Mexican, negro, Norwegian, Polish, Rumanian, Russian, Scotch, Slovak, Spanish, Swedish and Swiss.

An interesting class of girls is that in the Wadleigh High School for girls studying photography. Most of these young women attending the evening school hold office positions during the day, and with the intense desire to become more proficient in their chosen occupation take the advanced work provided in the evening classes to increase their speed and general capability. The city owes a special duty to those who are willing to help themselves and are waiting only for the opportunity for self-improvement, who are willing to work all

MISCELLANEOUS ADVERTISEMENTS.

The Watch-Dog in your Vest Pocket

YOU can buy Health Insurance now. Several good "Accident" Companies sell it. Sixty dollars per year will bring you \$25.00 per week, for every week you are Sick.

But, your time alone may be worth far more than that. And \$200 per week might not pay for your suffering.

That's why "Cascairet" Insurance which prevents Sickness, is worth ten times as much money as other "Health" Insurance.

Yet "Cascairet Insurance" will cost you less than Ten Cents a week.

That gives you a "Vest Pocket" Box to carry constantly.

"Indigestion" means food eaten but only partially digested.

"Constipation" means food retained in the body undigested too long, till it decays. It then supplies the poisons of decay to the system, in place of the nourishment it might have supplied.

Isn't that a tremendous handicap worth insuring against?

What does it cost to Cure Constipation or Indigestion, with their train of small and great ills, and to insure against a return of them?

Not so very much. One 10 cent box of Cascairets per week, at most, perhaps half that.

One candy tablet night and morning, taken regularly for a short time, is warranted to cure the worst case of Constipation or Indigestion that walks the earth.

One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other ills likely to attack you. Because 90 per cent of these ills begin

day to supply the needs of their families and to wait until evening for the opportunity to learn.

The first lattice bridge ever erected in England is at London and is likely to be taken down soon. It was taken to England from America for show purposes at the international exhibition in London in 1851.

EATEN OUT OF HOUSE AND HOME

How a Confirmed Dyspeptic Developed an Appetite Like a Corn-husker's and Cleaned Out Everything in Sight.

The wife of a leading druggist of Des Moines tells how her brother was changed from a dyspeptic without appetite to a prodigious eater:

"My brother, who is a lawyer in Chicago, came to visit me, and I hardly knew him on his arrival. He was so thin and run down. I had not seen him for years and was much alarmed at his appearance. He told me not to worry, as he had been in this condition for years as a result of chronic dyspepsia. I asked him what he had done for it, and he said he had done everything—taken every remedy he had ever heard of and consulted doctors without number. None of them helped him. I asked him if he ever took Stuart's Dyspepsia Tablets and he said he hadn't, and what was more he wouldn't. He had sworn off taking medicine of any kind or food before he was greatly improved. I had my husband bring home a box from the store and I actually made him take one or two of the tablets after he had eaten. They made him feel so much better that he offered no further objection. He had not taken the one box before he was greatly improved. He took three or four boxes cured him of dyspepsia and gave him a wonderful appetite. He came home eating his out of house and home. My, but it did me good to see him eat! He gained fifteen pounds before he returned home, and he writes me that he has not been troubled with dyspepsia since."

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of their work of digestive action. Their component parts are natural with those of the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained within the food and carry out Nature's plans for the sustenance and maintenance of the body.

Stuart's Dyspepsia Tablets, by thus relieving the stomach of its work, enable it to recuperate and regain its normal health and strength. Nature repairs the worn and wasted tissues just as she would knit the bone of a broken limb, which is of course not used during the process of repair.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. One box will frequently effect a permanent cure.

FREE POWER.

Water is free. Our Patent Motor brings a hydraulic power plant into every home or workshop. Cheapest power ever. The motor genuine. Free Water Motor was made to sell for \$3.00. For the next 30 days it can be yours for \$3.50.
